

LX915 Series Limit Switch 系列船用限位开关

产品性能 performance

LX915系列船用限位开关适用于交流50~60Hz电压至380V及直流至220V的船只辅机控制电路中作限各种机构和行程之用，也可使用其它需要控制机构行程之场合。限位开关合金制成防水型防位开应能在周围空气温度最高不得超过+45℃

有盐雾的环境中能耐受海上潮湿空气。

LX915 Limited switch is used in AC circuits of 50~60Hz with a voltage up to 380V, also in DC circuits of 220V, serving as travel limit of elements of vessels supplementary engine, It's also suitable for any similar purposes. As it has waterproof function, it can work at ambient temperature 45℃ or less and in marine salt mist. besides, it can stand marine humidity.

型号 type	约定发热电流 preating current (A)	额定工作电压 Rated working voltage		额定工作电流 Rated working current		控制电路数 control clircuits	最大操作次数(次/h) max.operation times
